

19.02.2013

“Dniprovskiy Pipe Works” LLC finalized producing of Casing pipe with dia. 426 mm grade K55 in November 2012. At present, these pipes have been sunk into an oil well and exploited successfully.

We developed production of the next standard-size for Casing pipes with big diameters in 2012. The first lot of Casing pipes with dia. 473 mm grade K55 as per API 5CT has been finished.

In January 2013, the plant launched production of Casing pipe with dia. 508 mm grade N80 as per API 5CT for oil and gas sector enterprises of Ukraine.
