

19.08.2013

In August, the company completed the modernization of the production of electric-welded pipes

.  
As a result of  
a complex  
range of  
activities  
produced  
pipe sizes  
extended  
from 70  
mm to  
76 mm  
in outer diameter

.  
Also  
increased  
the range of  
wall thicknesses

.  
Now the  
production facility  
can fulfill  
customer orders  
in the size range  
from 10 mm  
to 76  
mm inclusive  
in outer diameter

,  
with  
wall thickness  
0.8-4.5  
mm.
